SAVERIO NEGRO

+39 377 48 31 208 | saverionegro@gmail.com | linkedin.com/in/saverio-negro | github.com/saverio-negro

EDUCATION

University of the People — Bachelor of Science in Computer Science Pasadena, CA | Sep 2023 – Expected Jun 2027

Apple Developer Academy @Unina Federico II — Apple Developer Academy Diploma Naples, Italy | Sep 2024 – Jun 2025

Università degli Studi della Campania "Luigi Vanvitelli" — B.S. in Aerospace & Mechanical Engineering Aversa, Italy

Successfully completed 106.5/120 US Credits (Evaluated and Verified by ACEI).

EXPERIENCE

Volunteer Software Engineering Mentor | Code the Dream Durham, NC (Volunteering, Remote) | Sep 2026 – Present

- Mentor 15+ aspiring developers through an 11-week intensive Python curriculum covering syntax, data structures, algorithm optimization (lists, dictionaries, list comprehensions, defensive looping), and REST API integration.
- Facilitate professional workflow adoption across VS Code configuration, CLI navigation, and Git/GitHub version control (cloning, commits, Pull Requests).

Software Engineer | Outlier.ai Oakland, CA (Self-employed, Remote) | Aug 2024 – Present

- Train LLMs on Data Structures & Algorithms (DSA), design patterns, and large-scale Swift/Python codebases to enhance AI comprehension, performance, and safety.
- Authored 100+ high-quality prompts and reference solutions teaching modern software design principles; reviewed 50+ Jr. Software Engineer tasks for edge-case coverage and time/space complexity.

iOS Software Engineer | Apple Developer Academy @Unina Federico II Naples, Italy | Sep 2024 – Jun 2025

- Built 4+ native iOS apps using Swift and SwiftUI applying Apple Human Interface Guidelines (HIG), CoreData, SwiftData, and AVFoundation; improved feature usability by 30% via Agile sprints and user testing.

Software Engineer | Data Annotation New York, NY (Freelance, Remote) | Jan 2024 – Apr 2024

- Evaluated 100+ code submissions against modern software standards, conducted QA on LLM outputs, and created unit tests to verify logic and refine model reliability.

iOS Software Engineer | Jmec Srl Portico di Caserta, Italy (Full-time, On-site) | Sep 2020 – Nov 2023

- Architected modular, maintainable apps applying MVC, MVVM, and MVM patterns; built scalable SwiftUI components and REST APIs using DSA, CoreData, Combine, and MapKit.

iOS Software Engineer | Agenzia Experience Capodrise, Italy (Part-time, On-site) | Mar 2018 – Jul 2020

- Designed and implemented responsive mobile and web interfaces alongside internal real-time workflow dashboards utilizing SwiftUI and React.

PROJECTS

Quotly (WWDC25 SSC Winner App) | *Swift, SwiftUI, SwiftData, Vision, Natural Language, Git* Jan 2025 – Apr 2025

- Developed an award-winning iOS quote-journaling app with SwiftData, sentiment analysis, Vision OCR image-to-text input, local JSON management, and a time-locked reflection calendar (github.com/saverio-negro/Quotly).

Space Patrol | *Swift, SwiftUI, Combine, Concurrency, GCD, Reality Composer Pro, Git* Apr 2025 – Jun 2025

- Built a visionOS app featuring RealityKit, spatial UI, async interaction flows, an onboarding robot assistant, and 3D math visualization using the ECS pattern and custom FieldKit framework (github.com/saverio-negro/SpacePatrol).

SwiftUI Frameworks Series | *Swift, SwiftUI, DSA, Design Patterns, System Design, SOLID Principles* Jun 2025 – Present

- Engineered **StackBoard** (a runtime-aware SwiftUI layout system using marker protocols and type-erasure for recursive flattening), a declarative DSL via `@resultBuilder`, and **ModalCard** customizable alerts (github.com/saverio-negro/lists/swiftui-uifoundationkit).

TECHNICAL SKILLS

Languages:	Swift, Java, Python, C, SQL, JavaScript, HTML/CSS
Frameworks:	SwiftUI, UIKit, CoreData, SwiftData, Combine, RealityKit, Vision, Natural Language, Multipeer Connectivity, AVFoundation, MapKit, XCTest
Developer Tools:	Git, GitHub, Xcode, VS Code, PyCharm, IntelliJ, Reality Composer Pro
SWE Skills:	Data Structures & Algorithms (DSA), Design Patterns (MVC, MVVM, MVM, ECS), System Design, Object-Oriented Programming (OOP), Protocol-Oriented Programming (POP), SOLID Principles, Framework Engineering
